# OnCourse Connect Mobile App

Students and Guardians Get an Easier Way to Track Progress from Smartphones

This year, students and guardians can download a new mobile app for **OnCourse Connect,** Hoboken Public School's portal for retrieving student schedules, grades, teacher feedback, and attendance.

On your mobile device, you may already have an app shortcut on your smartphone (see pictures: Android on left, iPhone on right). Before getting the new app, we encourage you to delete these icons if you have them.

How to Get the New OnCourse Connect App

1. Visit the App Store/Google Play Store from your iPhone or Android phone

2. Search for "OnCourse Connect" and download the app

3. Enter your district-issued username and password

   *Don't remember your login? Press the **Forgot Password** link on the app home screen.*
