## Summer Math Assignment Students Entering Grades 6-12

June 15, 2018

Dear Parents, Guardians, and Caregivers,

Students will have the opportunity to engage with mathematics throughout the summer months. Prior to the close of the school year, teachers identified areas of growth that students will work on throughout the summer utilizing Edmentum for students entering grades 6 through 12. It is our belief that implementing this program will provide students with the skills necessary to be academically ready in the area of mathematics in September. The following are the expectations of activities per the prescriptions that are to be completed by September 6, 2018:

Entering Grades 6-8: 10 Activities

Entering Grades 9-12: 12 Activities

Directions on how to access Edmentum will be available via the district website at [www.hoboken.k12.nj.us](http://www.hoboken.k12.nj.us). You will have to click Curriculum to Summer Assignments in order to locate the PDF directions. Additionally, we have attached the directions to this correspondence for your view. Parents, guardians, and caregivers will be able to view the growth of their child throughout the summer as they work on these mathematics modules.

For students entering Grades 6 through 12, you are encouraged to take part in Summer Math Lab support throughout the summer. Certified teachers will be on-site to provide ongoing support to students that need assistance with their summer mathematics assignments.

For students entering Grades 6-8, Summer Mathematics Lab for Edmentum Summer Prescription Support will take place in the School Library at Hoboken High School. This math lab support program will take place Tuesdays and Thursdays 3:00 PM-5:00 PM.

For students entering Grades 9-12, the Summer Mathematics Lab for Edmentum Summer Prescription Support will operate Monday through Thursday in Room 212 between the hours of 9:00 AM-2:30 PM. The math lab session will begin on Monday, July 9<sup>th</sup> and conclude on Thursday, August 30<sup>th</sup>. Please note that the Math Lab at Hoboken High School will be closed daily from 11:30 AM-12:00 PM.

Students are aware of their usernames and passwords. Teachers will give their students a copy of their individual username and password. If your child forgets either their username or password, each school clerk will have this information in order to give it to you. Also, each math lab teacher will have this information for the students as well once the labs are open for summer assistance.

As always, we are here and happy to assist both you and your child academically through this initiative. We are confident that you will see positive academic growth. If you have any questions regarding the summer mathematics initiative please email me at [gfitzhugh@hoboken.k12.nj.us](mailto:gfitzhugh@hoboken.k12.nj.us).

Educationally yours,

*Gerald Fitzhugh, II*
